Akshitha Gopikrishnan

Communication Designer

I'm Akshitha, a 2nd year communication design student with an eye for seeing the whimsy nestled into the world. Besides working on design projects, I find myself illustrating on my ipad and drawing tablet, playing the Veena, crocheting and various other such pursuits. From mushrooms to sharks to kpop, my interest are at it's essence the very making of my heart and soul. And as all of humanity is, i like to beleive i, too, am simply an array of stardust with the goal to touch the skies.

Education
